

EPISODE: 12  
「審理①」 TRIAL 1

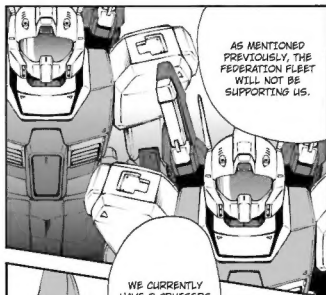

IF WE CAN'T  
CHANGE THE  
COMET'S  
ORBIT  
BEFORE THIS  
LIMIT IS  
REACHED  
...

MOVING  
FORWARD,  
IT WILL  
REACH THE  
EARTH  
SPHERE  
IN 24 HRS.

I'M HERE  
TO LET YOU ALL  
KNOW THAT  
THIS SHIP  
WILL SOON  
REACH THE  
COMET.

IN PARALLEL  
WITH THIS  
OPERATION,  
THEY ARE IN  
PREPARATIONS  
TO AVOID  
RADIATION  
EXPOSURE  
FROM  
"SOLAR SYSTEM II."

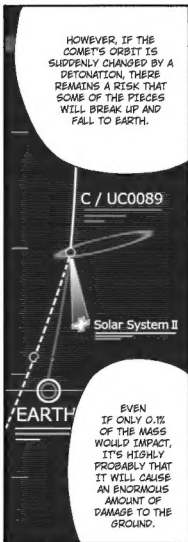

AS MENTIONED  
PREVIOUSLY, THE  
FEDERATION FLEET  
WILL NOT BE  
SUPPORTING US.

WE CURRENTLY  
HAVE 3 CRUISERS  
AND 13  
MOBILE SUITS.

THE OTHER  
SIDE WILL HAVE  
ROUGHLY EQUAL  
IN TERMS OF  
THEIR NUMBER  
OF FORCES.

HOWEVER, IF THE  
COMET'S ORBIT IS  
SUDDENLY CHANGED BY A  
DETONATION, THERE  
REMAINS A RISK THAT  
SOME OF THE PIECES  
WILL BREAK UP AND  
FALL TO EARTH.

EVEN  
IF ONLY 0.1%  
OF THE MASS  
WOULD IMPACT,  
IT'S HIGHLY  
PROBABLY THAT  
IT WILL CAUSE  
AN ENORMOUS  
AMOUNT OF  
DAMAGE TO THE  
GROUND.

THAT'S ALL  
I HAVE TO SAY.  
BEST OF LUCK  
TO YOU.

IT WILL BE  
A DANGEROUS  
MISSION, BUT I  
HAVE CONFIDENCE  
IN YOUR  
SUCCESS.

DO YOU  
...  
STILL THINK  
THIS PLAN  
IS A  
RECKLESS  
ONE?

VOL 2 - PG 119

I'M GLAD  
...  
YOU'RE  
SUCH A  
POSITIVE  
PERSON.

NO, AND I TRUST  
THE CAPTAIN WHO  
CHOSE THIS OPTION,  
EVEN WITH ITS  
LOW ODDS OF  
SUCCESS.

YOU  
HAVE MY  
UNCONDITIONAL  
SUPPORT!

IF IT'S TO  
SAVE THE  
PLANET  
...

YEAH!

IT'S THE  
WORST  
FEELING IN THE  
WORLD WHEN  
YOU HAVE NO  
PLACE TO  
GO BACK TO.

CAPTAIN,  
PLEASE TAKE  
CARE OF  
THE DELPHI.

I  
REQUESTED  
FOR BOTH OF  
THOSE  
GUYS.

HOWEVER  
A DECISION  
WAS MADE  
THAT I BE  
REMOVED  
FROM  
ESCORT  
DUTY.

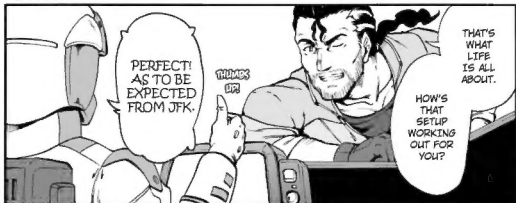

WHEN IT'S  
TIME TO  
ACTUALLY  
GO OUT ON A  
REAL MISSION,  
IT DOESN'T  
FEEL REAL.

HAHA.

THAT'S  
...  
WHAT I  
SAID.

VOL. 2 - PG 120

PERFECT!  
AS TO BE  
EXPECTED  
FROM JFK.

THANKS  
UP

THAT'S  
WHAT  
LIFE  
IS ALL  
ABOUT.

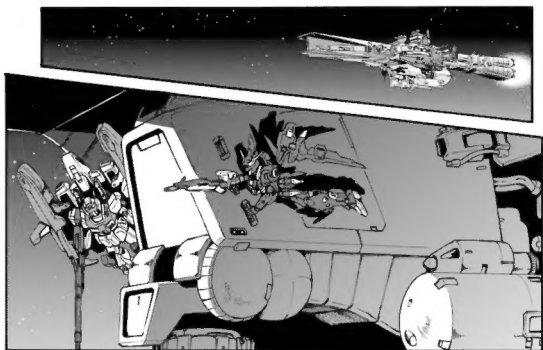

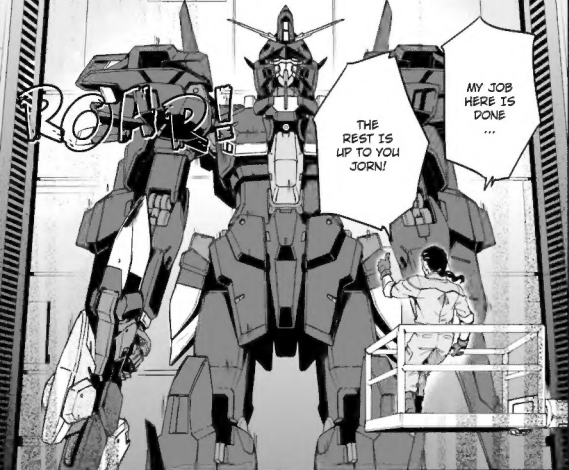

HOW'S  
THAT  
SETUP  
WORKING  
OUT FOR  
YOU?

AN  
IMPROV  
REPLACEMENT,  
BUT BETTER  
THAN  
NOTHING.

THE COCKPIT  
IN THE LADY'S  
GM III-DEFENDER  
HAS BEEN  
SWAPPED WITH  
ONE FROM A  
G-DEFENDER.

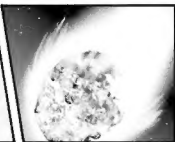

FOR THIS  
MISSION,  
THE  
GULLINBURSTI  
IS EQUIPPED  
WITH A RIFLE  
ORIGINALLY  
DESIGNED  
FOR THE  
GM III.

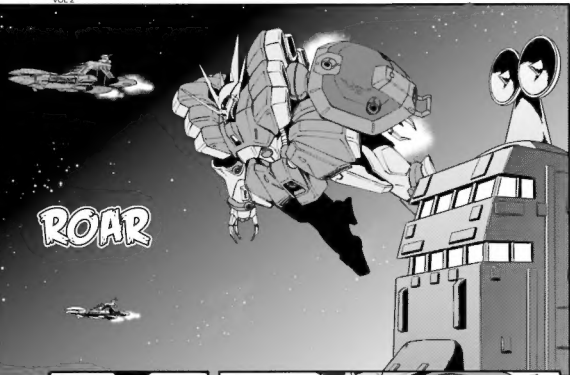

VOL. 2

VOL 2

ROAR

I  
PROMISE  
TO BRING  
THEM  
BACK TO  
EARTH.

AH  
...  
IF I  
AM TO  
SURVIVE  
...

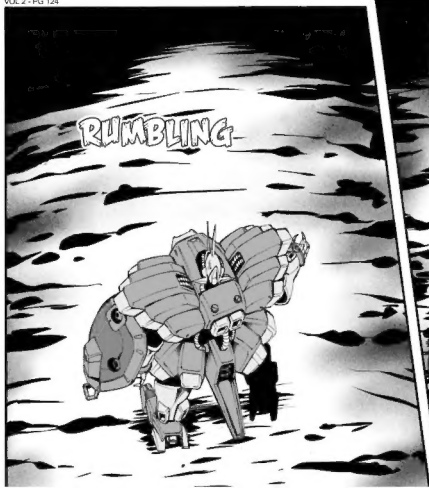

THEY ARE MY  
"COMRADES"  
IN THAT  
THEY SHARE  
THE SAME  
CIRCUMSTANCES  
AND FEELINGS  
AS I.

I OWE  
YOU A  
HUGE  
DEBT.

THEN I WILL  
TAKE CARE  
OF YOUR  
SHIP AND  
"COMRADES."

VOL 2 - PG 124

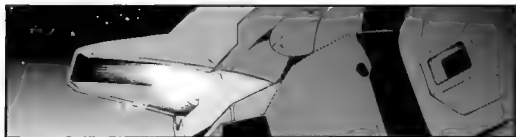

VOL 2 - PG 125

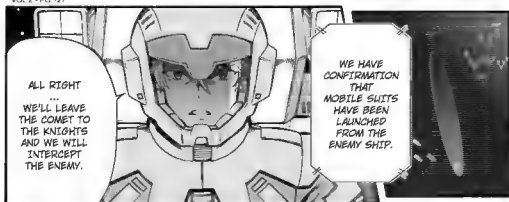

EVEN  
IF IT'S A  
GUNDAM  
...

THERE'S  
NO WAY  
YOU CAN  
STOP ME.  
...

VOL. 2 - PG 127

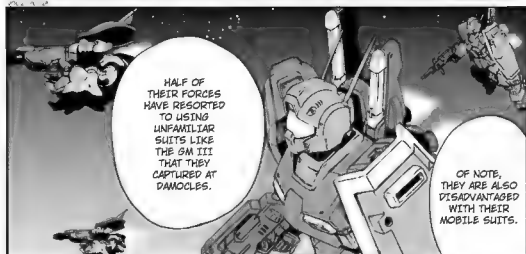

ALL RIGHT  
...  
WE'LL LEAVE  
THE COMET TO  
THE KNIGHTS  
AND WE WILL  
INTERCEPT  
THE ENEMY.

WE HAVE  
CONFIRMATION  
THAT  
MOBILE SUITS  
HAVE BEEN  
LAUNCHED  
FROM THE  
ENEMY SHIP.

ALTHOUGH  
THE NUMBER  
OF CRUISERS  
ARE EQUAL,  
WHEN COMPARED  
TO OUR TWO  
MUSAI-CLASS SHIPS,  
THEY ARE NO MORE  
THAN PAPER TIGERS  
WITH AUTOMATIC  
GUNS.

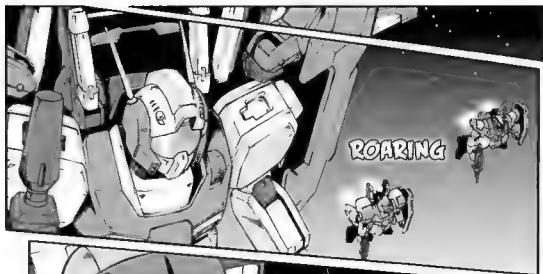

HALF OF  
THEIR FORCES  
HAVE RESORTED  
TO USING  
UNFAMILIAR  
SUITS LIKE  
THE GM III  
THAT THEY  
CAPTURED AT  
DAMOCLES.

OF NOTE,  
THEY ARE ALSO  
DISADVANTAGED  
WITH THEIR  
MOBILE SUITS.

BUT THERE  
IS SUCH  
A THING  
AS WILL.

ESPECIALLY  
WHEN  
POSSESSED  
BY ME.

ROARING

WITH THE  
SYRACUSE  
AND  
CATANIA  
MOBILE  
SUITS  
...

A MOMENT OF  
NOSTALGIA  
ARRIVES  
WITH THE  
BARZAM.

VOL. 2 - PG. 126

WE WILL  
PROVIDE  
ASSISTANCE.

I'M  
COUNTING  
ON YOU TO  
LEAD THIS  
CHARGE.

LIEUTENANT  
ESTER  
MCCAMPBELL.

OH.  
DON'T  
SAY THAT.  
IT'S A  
BAD OMEN  
AT A TIME  
LIKE THIS.

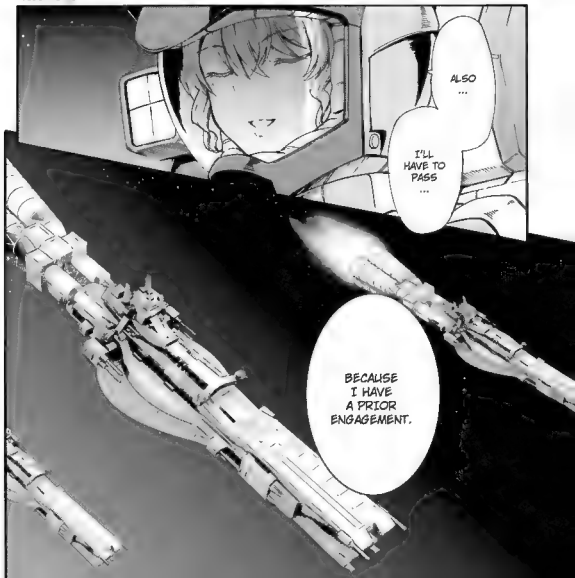

BY THE WAY  
...  
WOULD YOU  
LIKE TO MEET  
UP FOR DINNER  
AFTER THIS  
MISSION IS  
OVER?

OF COURSE,  
THANK YOU  
SO MUCH  
LIEUTENANT.

I KNOW A  
RESTAURANT  
WITH A  
BEAUTIFUL  
NIGHT VIEW  
...

VOL. 2 PG. 140

ALSO  
...

I'LL  
HAVE TO  
PASS  
...

BECAUSE  
I HAVE  
A PRIOR  
ENGAGEMENT.

VOL 2 - PG 131

DO WHAT  
YOU CAN  
TO GET THE  
ENEMY'S  
ATTENTION.

SWING!

YEAH  
...  
BUT DON'T  
CELEBRATE  
JUST YET.

CAPTAIN!  
THE CATANIA  
GOT ONE!

VOL. 2 - PG. 133

THE  
AXIS  
KNIGHT  
!!

HE HAS  
ARRIVED  
...

To Be Continued...

# AFTERWORD

"MACE OF JUDGEMENT" HAS  
ENTERED THE FINAL BATTLE!

FROM HERE ON, IT'S  
BASICALLY LIKE THIS ->

THERE'S NO ROOM FOR BONUS  
SCENES, THE CLIMAX  
IS FIERCE--EVEN IN TERMS  
OF ARTWORK--AND I HOPE YOU'LL  
STICK AROUND TO  
WATCH JORN AND COMPANY  
FIGHT UNTIL THE END.

*Poh*

フルヤマモル (Special thanks)

IN NOVEMBER 2011,  
THE ASTEROID OULUMIANUA  
ARRIVED FROM OUTSIDE  
OUR SOLAR SYSTEM, CAUSING  
QUITE A STIR.

IT WAS NOT A SPACE PROBE  
FOR EXTRATERRESTRIAL  
INTELLIGENT LIFE LIKE SEEN  
FROM SCIENCE FICTION,  
BUT RATHER THE FIRST TIME  
AN OBJECT FROM ANOTHER  
STAR APPEARED IN  
OUR SOLAR SYSTEM.  
A SEEMINGLY MINOR ALBEIT  
VALUABLE VISITOR.

IT WAS THANKS TO OULUMIANUA  
THAT HUMANITY WAS ABLE TO  
LEARN ONE MORE THING ABOUT  
THE UNIVERSE. AN HISTORIC  
EVENT THAT MADE  
US REALIZE  
"AS LONG AS HUMANITY  
HAS INTELLECTUAL  
CURIOSITY, THE  
UNIVERSAL  
CENTURY IS  
POSSIBLE."

JUNICHI KAMINO

MSW-004 Gundam Kestrel

As of U.C.0089 the actual machine had been lost. Jorm used the remaining data on the suit to test his skills against the Kestrel in a simulator.

▼ From its origins, it shares a brotherly relationship with the Gundam Gullinbursti.

# GUNDAM KESTREL

## Mobile Suit ORX-008 Gundam Gullinbursti

Based on the Gundam Kestrel, a suit developed by the Titans for Cyber-Newtypes. The Gundam Gullinbursti was the end result of the specifications from the original plan.

## Captured and modified by the AEUG

Its unique structure makes this Gundam type mobile suit stand out. Sporting several features seen mostly on prototypes, like a camera on the chest instead of the head, and a Core Block system. Another feature is the placement of three independent boosters powered by one generator each. These devices are located in the torso and both legs. A downside is that it cannot be flown without a pilot with notable G-force resistance. Developed for primary use by G-force resistant

Cyber-Newtypes, the option of which was available to the Titans at the time of its release.

## Gundam Kestrel's Equipment

BEAM RIFLE

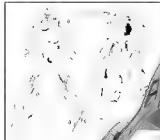

Equipped with the same type of beam rifle as the Gundam Gullbunt, one can also be used for sniping. Four spare magazines are carried on the waist.

Remains standard for a Gundam-type mobile suit. This includes a beam rifle, shield, and beam sabre. However, despite the normalities, it demonstrates incredible mobility and overwhelming combat power.

SHIELD

A small design for defensive purposes is mounted on the forearm. It is equipped with a three beam "Beam Madu" system which can be used for both offence and defence.

BEAM BLADE

Beam blade emitters are built into the shoulders, forearms, toes, and knees of the unit. The Kestrel design features a high output generator, allowing for the instantaneous deployment of 8 beam sabres from the emitters, permitting the suit to engage in high-mobility close-quarters combat.

## What is an Exterior?

The Gundam Kestrel had a remarkable option, not available on the prototype, called an "Exterior." Two designs were available. The "Manoeuvre Exterior" was used for improved mobility, and the "Armour Exterior" for increased firepower and defence. By using different Exteriors with different characteristics, the Gundam Kestrel was able to handle a wide variety of missions.

▶ In the simulator, the suit was equipped with the Manoeuvre Exterior. While in battle, it deployed its beam blades, creating a challenging battle situation.

### Full Armour Kestrel

The mode when the suit is equipped with both manoeuvre and armour Exteriors. The aser rocket unit has been repaired and enhanced, greatly increasing the mobility, firepower, and defence of the machine. Deployed at the end of the Gryps War, it played a major role in the AEUG's fighting forces and achieved remarkable results.

### Armour Exterior

An Exterior type that covers the entire body with additional armour. It is also equipped with a linear gun and missile container, which strengthens its defence and firepower. To counter the increased weight of the machine, thrusters and propellant tanks have been added to extend the operating time.

### Manoeuvre Exterior

After the aser rocket unit on the backpack was damaged in a battle, this Exterior was developed to compensate for the reduction in mobility. Four Break Binders are attached to the shoulders in addition to functioning as thrusters; they can also deploy beam blades and be used as wired psycommu system.

# MS-14J ReGelgu

▲ Knight Otaf's preferred machine since joining Neo Zeon. His previous experience with the Gelgoog unit made his transfer to this suit an easy one.

▼ Otaf took advantage of the extra mobility provided by the Wing Binders, using them to his benefit to fight on equal terms with the Gundam Gulsrburst!

## REGELGU

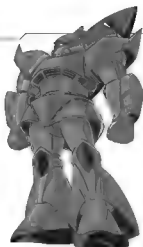

The last main force of the Principality of Zeon used a modernized version of the Gelgoog.

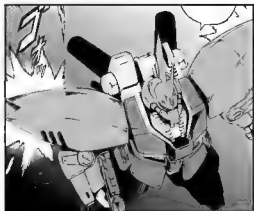

The machine was developed by the remnants of the Principality of Zeon who had fled to the asteroid base Axis following the One Year War. With updates to the interior, systems, armor materials, and other components, it acquired performance equivalent to the second generation mobile suits that were standard at the time.

### BASE MS

#### MS-14 Gelgoog

The first Zeon mobile suit equipped with a beam rifle. The full capabilities of this machine went unrecognized due to its deployment during the latter stages of the One Year War.

## WING BINDER BACK-PACK

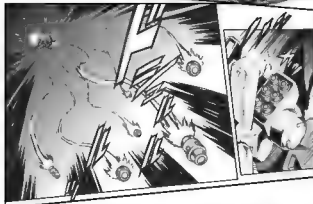

The most distinctive feature of the ReGelgu are the "Wing Binders" on both shoulders. With a total of six thrusters, three on each side, it provides the unit with increased mobility. An additional propellant tank is also connected to the backpack as an aide to extend its operating time. In addition, the Wing Binders and backpack allowed for the attachment of weapon racks.

## GRENADE LAUNCHER

A grenade launcher built into the forearm. Although it only holds two rounds, it comes with a variety of warheads including dummy balloons.

## MISSILE POD

The box shaped area on the right side of the backpack is the missile pod. There are several theories on the total number of missiles, but it is generally believed to have been 18. It was an effective weapon used to suppress an area using saturation fire, and could not be blocked by beam-resistant armor, a guarantee to cause damage to the target when hit.

## ReGelgu Structure/ Armaments

Along with its main weapons, consisting of a beam rifle and beam sabre, it is also equipped with additional defense mechanisms that include a grenade launcher and disc-shaped mines.

## BEAM RIFLE

The ReGelgu's main weapon. Reports at the time suggested the machine was equipped with two types of rifles. One that was the same type as the Gelgoog, and one similar to the Zaku, that was equipped with a grenade launcher. Graft's machine had the benefit of being equipped with a beam machine gun taken from the Gelgoog-J that could be used for sniping.

## MINE

A disc-shaped space mine. A munition that was installed in the spare space of the Wing Binder. To use it, it must be launched from the machine. It is classified as a special weapon with a wide range of uses, such as a diversionary tactic when saving the battlefield. In addition to the ReGelgu, there are several other Neo Zeon mobile suits also equipped with mines.
